

Full Description

Up the ante with the 66fit Fitness Weight Set

The 66fit Adjustable Weights Set is the perfect companion to your existing exercise regime enabling you to up the ante and go that extra mile.

Our six-piece Weight Set features 2 x 0.5kg wrist weights, 2 x 0.5kg ankle weights and 2 x 1kg dumbbells.

Used as part of your regular training programme the 66fit Ankle/ Wrist and Dumbbell Weight Set will help tone, strengthen and increase muscle while you work.

Our weights are widely recommended for a variety of fitness, strength, toning and rehabilitation workouts. Ideal for leg and upper body work.

Why Choose the 66fit 6 Piece Adjustable Weight Set?

Manufactured to a high standard the 66fit Fitness Set is a versatile, easy-to-use product designed with portability, practicality and easy storage in mind.

Each individual sand-filled weight is fully adjustable with a comfortable durable neoprene foam outer layer.

The ankle and wrist weights feature hook and loop attachments with the dumbbells boasting foam covered handles for maximum comfort during use.

All of the weights are unisex, one size fits all. Easy to fit, simply use the adjustable straps provided to fit and secure with the Velcro tabs.

The colour box features instructional graphics to show how to use the weights, with additional in-depth videos available online.
